

Join us online to discuss Sport Coaching Pathways

Friday October 29, 2021

12:00 - 15:00 CET

More and more coaching education courses and certification programs are becoming available, many of which coaches are asked, even required, to complete. Yet, coaches also learn from informal and non-formal sources.

The 2021 SpSS Webinar aims to challenge sport coaching practitioners, academics and sport leaders with *“How coaching expertise is developed and how much coaches learn inside and outside the coaching courses and certification programs.”*

International and national practitioners and academics with expertise in various sport levels and coaching, will share their views and deliberate on coach development pathways and what the sport field needs.

Webinar Program

12:00 - 13:00 - PART 1 - Setting the Challenge (open to all)

13:00 - 13:10 - Break

13:10 - 13:55 - PART 2 - Questions + Answers (open to all)

13:55 - 14:00 - Closing Part 1, 2

14:00 - 14:10 - Break

14:10 - 14:55 - PART 3 - Researchers' Corner (open to researchers)

14:55 - 15:00 - Closing Part 3

Part 1 - Invited Speakers

Mr. John Anders Bjørkøy, Olympic Training Center, Norway

Dr. Kristen Dieffenbach, University of WV, USCCE, USA

Mr. Per Elias Kalfoss, Norwegian Ski Federation, Norway

Dr. Göran Kenttä, GIH, Swedish Sport Confederation, Sweden

Dr. Julian North, Leeds Beckett University, UK

Part 2 - Invited Commentary

by Dr. Christine Nash, University of Edinburgh, UK

Part 3 - Researchers' corner

How views on coaches' certification, education- and experience-based knowledge development, concepts like voluntarism and professionalization, and practices like national sport bodies working with (or without) education institutions on developing coaching education programs interact with each other and impact coach education and development in different nations.

Is Certification the Only Pathway?

THE HOMOGENEOUS REPRODUCTION OF COACHES

The Webinar is organized by the iNN Sport and Social Sciences Research Group (SpSS), Elverum, Norway
