

Games for Sustainability

Explore games, discuss and design how to work with global complex issues. Welcome to an active afternoon in the Future Classroom Lab (Teknologirikt Læringsverksted) at Campus Hamar.

Date: October 23th

Time: 12.30-15.00

Program:

12.30: Welcome

12.40: Games and activities. *Participants test and experience different games and activities connected to sustainability.*

17.30: Design Lab. *In groups we design the next ultimate game for working with complex issues.*

The event is open for all students at Campus Hamar and our partner schools . It is free of charge. Here you can explore, talk and design together with students from other faculties, schools, countries, and cultures.

Registration: There is limited number of participants. To join the event, you need to register her:

<https://nettskjema.no/a/539698> or scan QR code

Venue: Future Classroom Lab (Teknologirikt Læringsverkstedet) Midtbyen park.

[Her is map of location.](#)
