SR-25/26-38 Orientering fra Studentrådsutvalget

Saksbehandler: Studentrådsutvalget Hamar

Saksfremlegg:

Orienteringene skal gi et innblikk i arbeidet som har blitt gjort siden siste studentrådsmøte.

- Det er en forslagsbok i kantina, hvor man kan skrive ned ønsker, slik at de fra kantina kan se på den
- Kommunen planlegger sykkelparkering, hvor folk kan løse inn syklene sine, men dette skjer først til våren

112 – Wasn't one of the things we talked about last time was the prices in the cafeteria.

68 - Sinn is a coopertation that does a lot like student counseling and so the prices has to stay high so they can keep giving those goods.

68 - Sinn has the chapelpriest talking person. But is sinn supposed to be responsible for every students mental health

1 - The kommune is supposed to handle the peoples mental health but they don't, that's why we have sinn that's supposed to be more accessible and free.

74 – The way I see it is that the waiting time in the public sector is that it takes a long time to get in the system, if we have an offer to get help very fast you don't have to rely on the public sector then its better that they don't cut kostnader from the samtale tjenester to make other things cheaper.

--

112 - Last time we also talked about the vagueness of the departments of sinn. Last time the sinn lady was here she kinda dodged the question about the different type of apartments and that you don't know what you get until you get the contract for the apartment, did we write something about that down. Random apartment with different prices and sizes, so you're not sure if you end up with way less of your student loan after paying rent.

1 - I later asked her more about that and she gave the same vague answers. But we can figure more of this at a later time.

--

74 – About the sykkelparkering, as I understood isn't it statsbygg that own the school property, they're also maybe responsible for the bike parking?

1- It's not the schools responsibility or else we would put more pressure on it being built.

112 - Wasn't there talking about putting on cameras

1 – Yes, they will be put up, I don't know when but it will be done at some point.

SR-25/26-39 Valg av møtedatoer for høsten 2026

Saksbehandler: Studentrådet Hamar

Saksfremlegg: Studentrådet skal bestemme møteplanen for våren 2026. Dette gjøres tidligst mulig slik at demokratitiden for studentrådsmøtene sikres og fakultetene kan planlegge rundt vår møteplan. Det blir også satt på dager der studieprogramutvalg ikke foregår for å sikre at det ikke blir konflikt mellom hva klassetillitsvalgt skal delta på.

Forslag til vedtak:

F1 – SR01-26/27 legges til 16.september

F2 – SR01-26/27 legges til 23.september

F3 – SR02-26/27 legges til 14.oktober

F4 – SR02-26/27 legges til 21.oktober

F5 – SR03-26/27 legges til 18.november

F6 – SR0326/27 legges til 25.november

74 – Next year we are having praksis at the first student meeting. Both of the first weeks, it's around 40 students 3rd years.

Everyone agreed towards the SRU choosing the dates.

SR-25/26-40 Fanesak om emneevalueringer

Saksbehandler: Fag- og forskningspolitisk komité

Saksfremlegg:

Fag- og forskningspolitisk komité arbeider med å finne ut hvordan det går med emneevalueringer på de ulike studiene. StInn har bestemt et større fokus på emneevalueringer dette studieåret, og derfor lurar Fag- og forskningspolitisk komité hvordan de klassesillitsvalgte opplever emneevalueringene sine.

Når dere gjør emneevalueringer så står det på universitetets nettside at studenter skal ha tilgang på alle emneevalueringer som de har gjennomført. Det vil si at du skal kunne se akkurat hva klassen har nevnt i emneevalueringene og hva emneansvarlig skriver i sin rapport som går til studieprogramansvarlig. Vår opplevelse er at det er veldig få som faktisk ser noe av disse. Så derfor har vi noen spørsmål som kan diskuteres i Studentrådet.

- Har dere hatt emneevalueringer?

56 – I'm an animation student, through the time the course evaluation has been conducted 4 different type of ways. The teacher has been in the classroom while we discussed, sometimes they leave, sometimes they have a sit down with only me (the class representant), sometimes with everyone in the class. Its messy and the questions in the evaluations can be confusing.

1 – There should be a set document with questions to ask, the professors should use those. Different ways its being carried out, idk if there's a set way for the teachers to conduct the evaluations

75- The way we have conducted the midterm evaluation, I talk in front of the class and go through the evaluation and then bring the teacher back in the class and we all go over it.

5- After such a long time we finally had one evaluation and it was very interesting cause im used to course evaluation with the game school where the class talk and then mention it to the teacher and the teacher and class all talk together. The music line has a weird evaluation. The class representatives got a zoom meeting link last year and were prepared to have a meeting with one teacher but we go in the meeting and most of the teachers were there with all different class representative from the music classes, everyone took turns talking about how they are instead of having an individual meeting.

1 - Those are det Spa meeting, you should have separate meetings where you talk individually with the emneansvarlige.

5- We haven't had normal evaluations, **musikk formidling 1** is the course its happening.

68- It's a shame cause my impression of my first year we had class evaluation. If the class are small we should have smaller evaluations, with the elective classes in 3rd year they are very

small and more individual based. The teacher called us in, the class representatives, and we spoke on behalf of the class.

79 – I also had emner with 5 students. I found all the evaluations but only found one summary from the biggest course. We've done it not anonymously with the smaller classes.

62 - We've only done it anonymously even when we've only been 2 people.

1 - I don't know if its course to course specific with it being anonymous or not, but I will find out.

Most people agree that they've had course evaluations.

- Hvordan har disse blitt gjort?

- Har du sett oppsummeringen eller rapporten fra emneevalueringene klassen har hatt?

- Hvor mange emneevalueringer har du tilgang til i Canvas?

53 – Would that be from previous years, cause we don't have access to those. We only have access to the ones we've done ourselves.

5 - Since our class (music class) haven't had any evaluation, I don't know if there is any or have seen any evaluations.

22 – We don't have access to any, we've done them but we don't see them after doing them.

1 - you should have access to summary

22 - Preschool teacher year 2 we don't have any access to summary or the evaluation after having done them.

68 – Guidelines of the inn websites says that the evaluations and summaries should be published in canvas and that we should have access to them.

22 – We can double check with our own teachers and figure out if we do have access to them.

Vi ser også på muligheten til å ha en underside på nettsiden til INN eller StInn med alle emneevalueringene på hele INN, der du kan bla gjennom alle emneevalueringer som er gjort. Hva tenker dere klasses tillitsvalgte om å ha en side med alt av emneevalueringer tilgjengelig?

Studentrådsutvalget tar Studentrådets diskusjon med til Fag- og forskningspolitisk komité.

SR-25/26-41 Orientering fra tillitsvalgte

Saksbehandler: Studentrådet Hamar

Saksfremlegg:

Studentrådsutvalget gir klassetillitsvalgte muligheten til å ta opp saker og orientere studentrådet

Forslag til vedtak:

Studentrådet tar alle orienteringene til etterretning.

53 - Speakers in room 2N3211 are bad and makes the ears go auau.

--

29 – Our class wants trash cans in the womens toilets instead of the plastic bags.

1 - We've gone through this before, the cleaners says its too much to do.

--

53 - Air quality in biohus is bad, we have to get everyone out of the class in between classes cause the air is that bad in 2n3211 and one closer classroom that's closer to the stairs. (Game school)

1 - The school has sometimes hired people to check the air quality while students are in the classroom, and the results say that the air is good and won't do anything about it.

Multiple people agreed with it being a more biohus problem than the rest of the school.

--

6 - Someone in the teams chat says "I have a friend who got a sandwich from the cantina, they're allergic to nuts, the sandwich they ate didn't have any labeling about it having nuts in it, but they later found out that there was pesto on the sandwich. They got a reaction and had to go to the hospital."

--

19 - Akustikken I øvingsrom 2 er dårlig.

--

53 – There is bad cabling around the school, hdmi don't work, and on the verge of being a fire hazard.

112 - In some of the classrooms in biohus there's no way to charge your pc if you're in the middle of the classroom.

53 - We have same issues in some classrooms, the power of half the classroom goes out and we have to call IT, it disturbs the class and wastes time. Classrooms – 104 in biohus, half the classroom power goes out.

22- 104 has shitty air quality, and there's professors who can't connect their pc to the big screen Same problem with 109 as well.

--

52 – Muslim students who complain about the food options being slim. There's very little to non halal or vegetarian options so they usually can't find food to eat at the school.

112- same with glutenfree options.

--

22 - Recently a lot more people are using the swimming pool – yesterday it was fully booked, if there's a possibility to have a different påmelding skjema with different time options cause most of the times its not fully to the times its booked. Is it possible to have more options than only from 4 o'clock and have it open earlier in the day.

--

56 – Sinn app isn't updating the menu of what's supposed to be served in the cantina.

--

53 – A small complaint, in the biohus the doors inside are locked until like 8 in the morning, so you're locked out if you're early. Is it possible for them to be open earlier so that if you get to school early you're not stuck outside.

1 - locked doors we can't fix that cause of safety precautions because of expensive stuff in the school.

53- is it not possible to have it earlier in the day so you can come earlier

112- couldn't they do something similar with what they do with the group rooms so you can use your card and see who goes in.

56 - first years usually don't have access in game school because the school are bad with updating the cards, but you finally get access 2nd year.

48 – De som går concept art linja er de eneste som har tilgang til gangen inn til gameschool.

SR-25/26-42 Eventuelt

Saksbehandler: Studentrådet Hamar

Saksfremlegg:

Studentrådet gis mulighet til å ta opp eventuelle saker

22 – I wanted to add something to what I said about the swimming pool earlier. The swimminpool and the training room, there's only access from 16, is it possible to have access earlier for days that it's not already booked?

112 - The training room is set up so you either send in the skjema from 4-6 or 6-8, is it possible to have it open earlier than that?

--

118 – Er det mulig å få brakka døgnåpen? Det er et musikk rom i eget bygg som ikke forstyrrer noen.
